Mrs. Lee Harvey Oswald

Dear Mrs. Oswald:

I am wondering if you could tell me exactly what was the diet of your husband. Was he prone to eat a lot of sweets, desserts and sandwiches?

I am making a study of the fact that many people are not responsible for what they do and that due to their economic status their diet is so bad that it effects their character. We are creatures of circumstances to that effect. In other words, Lee Harvey Oswald might have been the way he was because of the system of manufacturing foods and refining them and taking out vital things and the fact that he did not have enough money to buy enough of good healthy food. This might be published in our magazine called "PREVENTION".

Sincerely yours,

PREVENTION
